Tranche 2 Funding Allocations 2022

www.sportireland.ie

### **€5.5m** Total investment from Sport Ireland Tranche 2 2022 Dormant Accounts

To support the development of future leaders in sport, €300,000 has been invested in Youth Leadership programmes across a variety of National Governing Bodies.

An investment of €400,000 into the Aspire Graduate Programme will enable recently qualified sport and physical activity graduates to gain relevant experience in sector-based organisations.

The Sport For All Disability Supports Club Fund will offer grassroots sports clubs an opportunity to initiate or build upon disability specific activities within their clubs. Clubs will have the opportunity to facilitate exciting initiatives and projects that will promote sport and physical activity for all in society.

The Get Ireland initiatives prioritise swimming, cycling, walking and running to support higher levels of active participation and to help sustain participation across the life course.

This is the first year that Community Sport and Physical Activity Hubs will operate within the existing structures of National Governing Bodies. The 4 new Hubs aim to make it easier for people in disadvantaged areas to get involved and engage in a more active and healthier lifestyle.

This scheme seeks to support the implementation of the Sport Ireland Policy on Diversity and Inclusion in Sport by reducing the barriers and challenges to participation for those in diverse communities.

# €2.2 million

### Total investment from Sport Ireland for 'Sport for All' Disability Supports Club Fund

The 'Sport for All' fund offers every club affiliated within a Sport Ireland recognised National Governing Body an opportunity to provide inclusive programmes and supports for people with a disability.

Clubs will be supported through their NGBs

### Funds will go towards:

- Disability specific training and education.
- Commencement or expansion of a disability specific programme or project.
- The purchase of equipment of the completion of small scale infrastructure works that support a disability specific programme or project.

## **External Projects**

The ultimate aim of this investment is to enable NGBs to provide opportunities for lifelong participation in Sport and Physical Activity for everyone. All initiatives that successfully secured funding will be supporting at least one of the five pillars of the <u>Sport Ireland Policy on Diversity and Inclusion In Sport</u>:

- Change
- Communications
- Access
- Capacity
- Leadership

This fund seeks to build capacity and skills across sport in the area of inclusion to ensure sport is welcoming and inclusive, offering appropriate opportunities for participation and improvement to all, regardless of socioeconomic background, gender, disability, sexual orientation or ethnicity.

#### Get Ireland Running/Cycling/Swimming/Walking

The Get Ireland projects support actions 43 and 45 of the National Physical Activity Plan.

Action 45 to 'develop a physical activity for health culture in Ireland through the development of new Get Ireland Running, Get Ireland Cycling and Get Ireland Swimming initiatives'

Action 43 to 'Rollout a new Active Communities Walking Programme in all LSP areas and support over 500 new active community walking groups around the country under the Get Ireland Walking initiative'.

Dormant Accounts Funding has supported these projects between 2016 & 2021, this funding in 2022 will allow for and contribute to further expansion of the programmes in 2022/2023.

The allocations also support Action 5 of the National Sports Policy 2018-2027 which aims to prioritise sports like swimming, cycling and running to support higher levels of active participation across the life course.

Organisation	Total Awarded
Athletics Ireland	€125,000
Cycling Ireland	€125,000
Mountaineering Ireland (Get Ireland Walking)	€125,000
Swim Ireland	€125,000

#### **Community Sport and Physical Activity Hubs**

The objective of a Community Sport and Physical Activity Hub (CSPAH) is to bring local people together and provide a home for local clubs and sports organisations.

This is the first year that CSPAHs will operate within the existing structures of National Governing Bodies of Sport. The Hubs will provide information, support and advice on NGBs activities to make it easier for people in disadvantaged areas to get involved and engage in a more active and healthier lifestyle. The Hubs will recognise the diversity of their local communities and will seek to reach out and increase participation from all corners of the community.

Each Hub will be unique; however, they are all meant to work to certain principles, namely grow participation, engage the local community, promote community leadership, offer a range of sporting opportunities and bring all key partners/groups/people together.

Organisation	Total Awarded
Athletics Ireland	€70,000
Badminton Ireland	€70,000
Cricket Ireland	€70,000
Irish Sailing	€70,000

#### Youth Leadership

The overarching goal of this project is to develop and roll out Youth Leadership programmes which will target secondary school aged learners who wish to develop their leadership skills and will focus on learners who are in socio-economic disadvantaged communities and those with a disability.

This project provides a steppingstone for learners into employment and into further education or training. This programme will develop generic leadership skills that can be applied to a variety of sports and/or recreational situations as well as contributing to the personal development of the learner.

It will also assist in developing trained volunteers who can assist with the delivery of sport and recreation initiatives within their community. The initiative will provide training for young people, keeping them engaged, increasing their responsibility, and developing their confidence and self-esteem and will provide an opportunity for lifelong volunteering. The programme has the potential to impact on both early school dropout in disadvantaged areas and dropout rates from sport within the targeted age group.

#### **Innovation for Sports Inclusion**

Within the National Sports Policy one of the overarching values is to "... encourage and stimulate innovative solutions to the challenges we seek to address around participation, high performance and the development of the sports sector." Additionally, the National Sports Policy promotes "developing an adaptable and innovative sports sector that is capable of identifying and responding to the differing and changing needs of individuals at different points in their lives." The innovation funding stream also links into numerous actions from the National Physical Activity Plan supporting physical activity and sport participation across all levels of society.

The objectives of the Innovation Fund are to:

- Pilot new approaches to the development and promotion of sport participation
- Evaluate and document successes and failures of the approach; and
- Demonstrate replicability and scalability for nationwide use and implementation.

These projects look to test innovative and scalable solutions to critical problems and challenges in the development of sports participation at national, local, community and individual levels.

#### Aspire Graduate Employment Programme

The Aspire Graduate Employment Programme was set up initially to enable recently qualified sport and physical activity graduates to gain relevant experience in sector-based organisations. Sport Ireland is aware that a significant number of graduates enter the job market every year having successfully completed a range of sport related qualifications. The Aspire programme creates opportunities for these graduates to work directly in National Governing Bodies, Local Sports Partnerships, and other funded bodies.

## **Internal Projects**

#### **Coaching Teenage Girls**

Through Dormant Accounts Funding, Sport Ireland developed an evidence based coaching module for teenage girls which has recently been rolled out as a pilot project. As part of the ongoing work in this project, both NGBs and LSPs will receive training to upskill their coach developers. This upskilling will in turn enable coach developers to deliver the module internally in their organisation. The result of the latter will be more informed coaches who can help reduce the drop out of teenage girls from sport by adapting their coaching methods to suit the motivations and needs of their athletes.

Project	Sum of Total Awarded
Coaching Teenage Girls Phase 2	€50,000

#### **Dormant Accounts Fund Communications Campaign**

This communications campaign will raise awareness and provide communications support to various stakeholders (NGBs, LSPs, Cara) in promoting their DAF projects. This goal will be achieved through the development and roll-out of a national campaign, which will engage the target audience, and those that influence the audience. The campaign will be delivered through various communications channels including online media, radio, social advertising, photography, and videography. The campaign will also ensure that there is localised impact.

Project		Sum of Total Awarded
DAF Communications	Campaign	€300,000

#### **Volunteer Supports**

Sport Ireland are the lead agency for the development of the Volunteering in Sport Strategy which supports Action 27 of the <u>National Sports Policy</u> - "Sport Ireland will bring forward a volunteering strategy to consider issues around recruitment, retention and recognition, the gradients that exist in volunteering, and how to address the challenges to sustain and grow our volunteer base. Newer forms of volunteer engagement will be encouraged that stimulates active and social participation ideally suited to modern times."

This allocation of funding will support the activation and delivery of the strategy action plan in 2023.

Project	Sum of Total Awarded
Volunteer Supports	€83,000
