

Children's Sport Participation and Physical Activity Study 2022

Summary Report

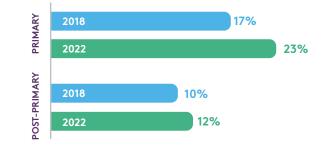

This summary report provides an overview of the key findings from the 2022 Childrens Sports Participation and Physical Activity Study (CSPPA).				
WHO	This was an All-Island study with 8,881 children aged 10-19 years old from the Republic of Ireland (6,358) and Northern Ireland (2,523) participating in the research programme. In total there were 1,758 primary school children and 7,123 post primary students across 153 schools - 122 schools from ROI (53 primary/69 post primary) and 31 schools from NI (11 primary/20 post primary) Gender - Girls: 48%. Boys: 48.6%, Other: 3.4%			
WHAT	 Areas of Focus Behaviours and attitudes relating to: Physical Activity, Community Sport, School Sport, Physical Education, Active Travel, Contemporary Issues in Physical Activity Overall population participation and differences by demographic characteristics including: Ethnicity, Gender, Disability, Socio-economic status (SES), Rural and Urban 			
WHY	To understand participation levels in sport, physical activity, physical education and active transport on the Island of Ireland. To understand the impact of sport and physical activity on physical, mental and social health, including the impact of COVD-19 To identify the challenges faced by children from diverse backgrounds and communities To inform policy makers in the development of strategies and programmes that will promote sport and physical activity across society.			
HOW	The research was coordinated by four research centres at University of Limerick, University College Cork, Dublin City University and University of Ulster. Questionnaires were administered in schools by trained teachers called 'CSPPA Ambassadors' via tablet or computer with the remote support of researchers.

Key Findings (ROI)

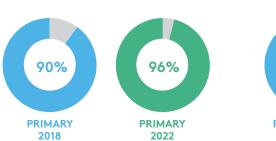

PHYSICAL ACTIVITY Students meeting the Physical Activity Guidelines

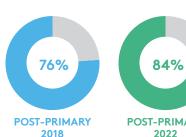

The number of children meeting the National **Physical Activity Guidelines** has increased since 2018

ANY SPORT Students participating in any sport at least once a week

Overall participation rates in sport have increased since 2018

POST-PRIMARY

SCHOOL SPORT

X

PRIMARY

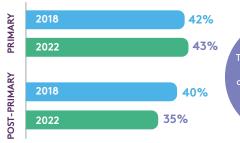

POST-PRIMARY

2022

ACTIVE TRAVEL

PRIMARY (2022)

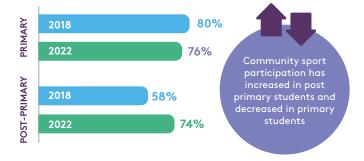

Students who actively travel to/from school

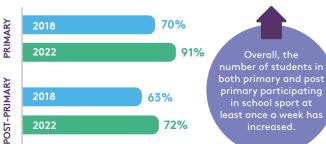

The number of postprimary students actively travelling to or from school has decreased since

COMMUNITY SPORT

Students participating in sport in a sports club or community setting at least once a week

Students participating in sport at school,

outside of PE, at least once a week

POST-PRIMARY (2022)

PHYSICAL EDUCATION

Average PE minutes per week in schools

Students participating in sport at school, outside of PE, at least once a week

VMUI </t

ACTIVE TRAVEL

Spotlight on Urban and Rural

PHYSICAL ACTIVITY Students meeting the Physical Activity Guidelines

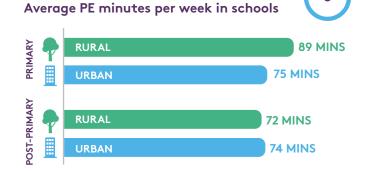

ZZYK.

Children from rural schools participate more in community sports than those attending urban schools

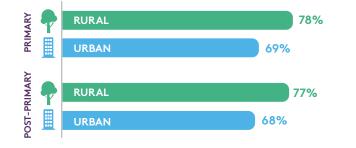

PHYSICAL EDUCATION

Children from urban schools have higher rates of active travel than those from rural schools

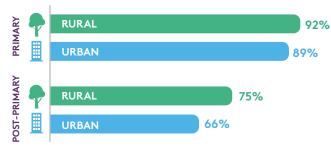

COMMUNITY SPORT

Students participating in sport in a sports club or community setting at least once a week

SCHOOL SPORT

Students participating in sport at school, outside of PE, at least once a week

Primary school children

from rural schools are more

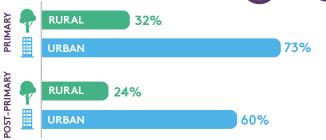

likely to meet the National

Physical Activity Guidelines

than those from urban schools

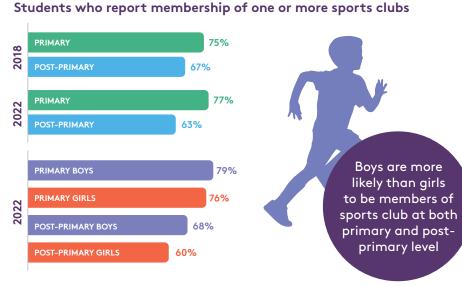

ACTIVE TRAVEL

Students who actively travel to/from school

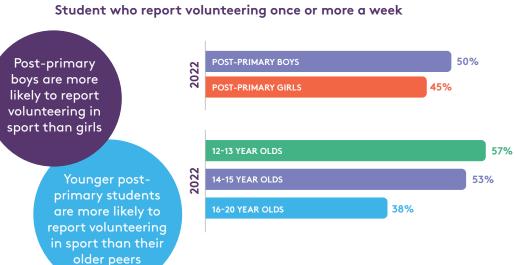

Social Participation in Community Sport

CLUB MEMBERSHIP

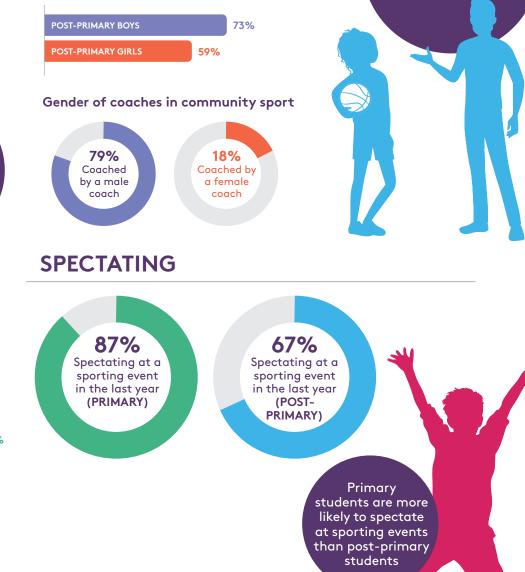

VOLUNTEERING

EXPERIENCE OF COACHING

Students who report receiving coaching in community sport

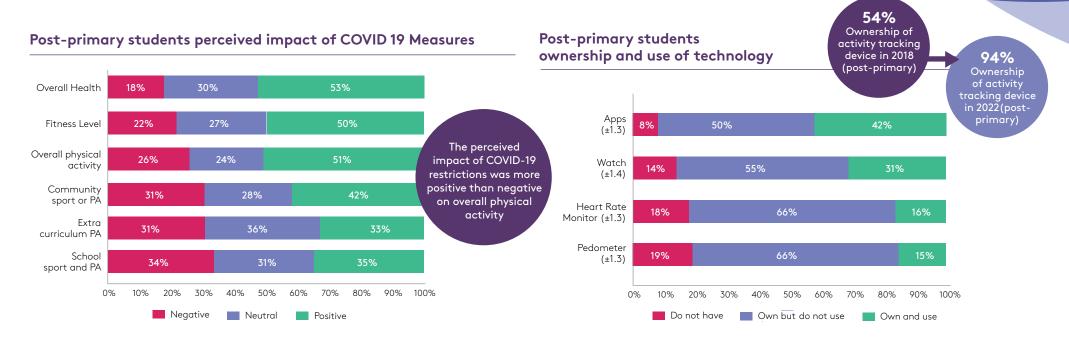

Only 18% of post-

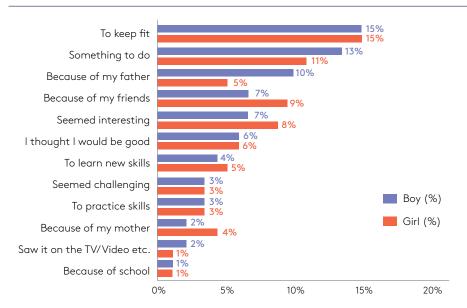

primary students reported being

coached by a female

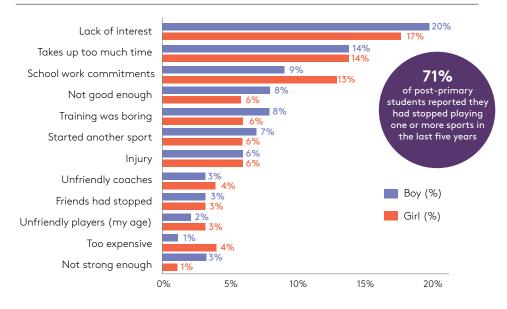

Contemporary issues in sport and physical activity

Top reasons for participating in sport among post-primary students

Top reasons for stopping sport among post-primary students

Summary of findings for Republic of Ireland and Northern Ireland 2018 and 2022

O utours	R	OI	NI		
Outcome		2022	2018	2022	
PHYSICAL ACTIVITY					
Participating in daily physical activity (%)		15	13	17	
Primary school students participating in daily physical activity (%)		23	20	21	
Post-primary school students participating in daily physical activity (%)		12	11	16	
Primary school meeting the muscle strengthening guidelines (%)		48	-	44	
Post-primary school meeting the muscle strengthening guidelines (%)	-	41	-	42	
COMMUNITY SPORT					
Primary school participation in community sport at least once a week (%)		76	65	73	
Post-primary school participation in community sport at least once a week (%)		74	49	71	
SCHOOL SPORT					
Primary school students participating in school sport at least once a week (%)		91	65	92	
Post-primary school students participating in school sport at least once a week (%)		72	58	76	
PHYSICAL EDUCATION					
Average weekly PE for primary schools (minutes)		85	-	61	
Average weekly PE for post-primary schools (minutes)		73	-	73	
ACTIVE TRAVEL					
Primary school students engaging in active travel (%)		43	36	40	
Post-primary school students engaging in active travel (%)		35	18	18
