

NOTICE re Wicklow Way

Please be advised a reroute of the Wicklow Way is in place until further notice due to forestry works near the midway point of the route at Drumgoff. It follows the Clohernagh brook if you are heading North or South.

Signage is in place and is easy to follow.

The terrain under foot here is uneven so please take extra care.

Heading North look out for diversion of at hairpin bend on trail towards a cul de sac and then pick up the trail along the tree line down to the bottom to rejoin the original route.

Heading South watch for diversion signs at the Half Way Marker and follow up along tree line and brook to forest road and take a right to rejoin the original route.

Many thanks !

Aaron Byrne
Rural Recreation Officer
County Wicklow Partnership.
